

WHAT IS CLAIMED IS:

- 1 1. A gazebo comprising:
 - 2 a plurality of corner supports, each corner support having a
 - 3 top end and a bottom end and two or more legs connecting the top
 - 4 end and the bottom end;
 - 5 a roof structure having a plurality of base corners, each
 - 6 base corner engaging the top end of one of the plurality of corner
 - 7 supports, the combination of the roof structure and the corner
 - 8 supports forming a gazebo envelope and defining an optimal benefit
 - 9 area within the gazebo envelope;
 - 10 a service unit having a service area and a patron area, the
 - 11 service unit integrated between two adjacent corner supports, the
 - 12 service area and the patron area of the integrated service unit
 - 13 are within the gazebo envelope, and some or all of the patron area
 - 14 is congruent with the optimal benefit area.
- 1 2. The gazebo of claim 1 wherein the plurality of corner supports
 - 2 further comprises:
 - 3 one or more support panels, each support panel having a top
 - 4 end and a bottom end and two generally parallel legs connecting
 - 5 the top end to the bottom end, and one or more support webs
 - 6 connected between the two generally parallel legs, and one or more
 - 7 lateral supports connected between the two generally parallel
 - 8 legs.
- 1 3. The gazebo of claim 1 wherein the plurality of corner supports
 - 2 further comprises:
 - 3 a plurality of support columns.
- 1 4. The gazebo of claim 3 wherein each of the plurality of support
 - 2 columns further comprise:
 - 3 two or more support panels, the two or more support panels
 - 4 connected along adjacent leg edges.
- 1 5. The gazebo of claim 1 wherein the roof structure further

1128.701

2 comprises:

3 an apex vent.

1 6. The gazebo of claim 5 wherein the apex vent further comprises:

2 an apex opening in the roof structure;

3 a second tier vent structure secured within the apex opening;

4 and

5 a second tier roof covering secured to the second tier roof

6 structure.

1 7. The gazebo of claim 1 wherein the service unit further

2 comprises:

3 a generally U-shaped counter between the service area and the
4 patron area, the service area the service area bounded on three
5 sides by the generally U-shaped counter.

1 8. The gazebo of claim 7 wherein the service unit further

2 comprises:

3 one or more shelves.

1 9. The gazebo of claim 7 wherein the service unit further

2 comprises:

3 one or more self-draining shelves.

1 10. The gazebo of claim 3 further comprising:

2 one or more service shelves, each of the one or more service

3 shelves secured to a support column.

1 11. The gazebo of claim 1 further comprising:

2 a plurality of support trusses, each support truss connected

3 between adjacent corner supports.
